**RE: Gates at Utah Lake
Notice from Division of Water Rights Dated November 19, 2009**

Dear Lee,

North Jordan Irrigation Company is in receipt of your letter referenced above concerning operation of the gates at the outlet of Utah Lake. Our North Jordan Irrigation Company Board has discussed this issue and we would like to inform you that we understand our obligations outlined in the 1985 Compromise Agreement. As you are aware, the Board of Canal Presidents (BOCP) has the responsibility to work with John Larsen, Utah Lake & Jordan River Water Commissioner, to ensure that the lake level is properly managed. We are committed to work with you, your staff and John Larsen to ensure that the BOCP properly manages the gates. I look forward to discussing this issue during our upcoming Utah Lake & Jordan River Distribution System meeting to be held on January 19, 2010.

Sincerely,

North Jordan Irrigation Company

Van F. King, P.G.
President

Cc: John Larsen, Utah Lake & Jordan River Water Commissioner
NJIC Board Members
